Mulund, Mumbai

## PROFESSIONAL SUMMARY

Software Engineer with **3 years of experience** in designing and developing **scalable web applications** using **Angular, TypeScript, Node.js, and MSSQL**. Experienced in building **real-time systems, RESTful APIs, microservices-based architectures**, and **AI-integrated features**. Strong understanding of **performance optimization, role-based access control, multi-tenant applications**, and delivering **production-ready code** in **Agile environments**.

## TECHNICAL SKILLS

**Languages:** JavaScript, TypeScript

**Frontend:** Angular, Angular Material, RxJS, NgRx Store

**Backend:** Node.js, Express.js

**Databases:** Microsoft SQL Server (MSSQL)

**Web Technologies:** RESTful APIs, WebSockets, Socket.IO, Redis

**Concepts:** Microservices, RBAC, Multi-Tenant Architecture

**Tools:** Git, GitHub, Postman

## WORK EXPERIENCE

**SmartConnect Technologies Pvt Ltd**

*Software Engineer*

**08 May 2023 – 27 Mar 2026**

*Mumbai*

### UNFYD-WORKS: MULTI-CHANNEL INTERACTION PLATFORM

- Developed and maintained 5+ microservices-based applications using **Angular** and **Node.js**, supporting 10+ enterprise clients.
- Built reusable Angular components using TypeScript, Angular Material, and role-based access control.
- Implemented a feature flag system to dynamically enable or disable features without redeployment.
- Designed and implemented real-time messaging using **Socket.IO** for live customer-agent communication.
- Developed real-time dashboards using **ECharts** to visualize operational metrics and agent performance.
- Integrated applications with enterprise CRMs using **iframes** and secure **postMessage communication**.
- Integrated voice communication features using third-party CTI vendors (**Genesys**, **Meta**).
- Migrated application from **Angular 16 to Angular 20**, improving performance and maintainability.

### DOC-OCR: AI-BASED DOCUMENT DATA EXTRACTION MODULE

- Designed and developed a DOC-OCR module to extract structured data from legacy and scanned documents.
- Integrated **gemini-pro-vision** API for AI-based OCR and intelligent document understanding.
- Implemented logic to extract key fields from unstructured documents and convert them into structured data.
- Validated and processed extracted data before persisting it into **Microsoft SQL Server**.
- Built backend services using **Node.js** and frontend interfaces using **Angular** for data review and correction.

### UNFYD-AI-SUMMARY: AI-POWERED TRANSCRIPT ANALYSIS MODULE

- Developed an AI-powered transcript analysis module using **OpenAI APIs**.
- Implemented NLP-based analysis for intent, sentiment, summaries, and follow-up actions.
- Built backend services using **Node.js**, **Express.js**, and **Microsoft SQL Server**.

## EDUCATION

**Learn With Mindscript Institute,**  
*Master Web Development Certification (MERN Stack)*

**Thane Feb 2023**

**Mumbai University**  
*Bachelor of Commerce*

**2021**  
CGPA: 7.00/10
